   5.3.1. Audited Financials 2010
   There were no questions or comments to the audited financial statements as presented in the WSAVA Assembly book.
   **Motion: to accept the audited financial statements as provided by Ward & Uptigrove**
Seconded Dr. Umesh Karkare and unanimously adopted.

5.3.1.1. 2010 Interim Audit Management recommendations
5.3.1.2. Management Progress Letter - Year End Letter from the auditor
As a result of the interim and final 2010 Auditor’s reports, numerous recommendations were forwarded to the WSAVA regarding Treasury and accounting practices and protocols. These had been adopted, prioritized, and were in the process of being implemented, as the year-end management letter from the auditor attests to.

5.3.2. 2011 WSAVA Budget
5.3.3. Balance Sheet Comparison
5.3.4. Profit &Loss Previous Year Comparison
The Treasurer spoke to the above based on the reports provided in the Assembly book. A question arose regarding the WSAVA protocol for managing accounts receivable. As this was primarily related to lack of membership dues payment, it was noted that under the current Treasurer this had virtually been resolved through a process of both generic and personal reminders.

5.3.5. FAC Report – Prof. Ellen Bjerkas
Prof. Bjerkas spoke to her Assembly report and to the outcome of the meeting held by the FAC the day prior to the Assembly meeting. The FAC expressed concern over historical issues related to the WSAVA Treasury and associated accounting procedures/protocols, including FAC involvement; however, Prof Bjerkas noted that as an outcome of the 2010 Audit procedure, the WSAVA has adopted and is in the process of implementing sound accounting procedures/protocols and the By-Laws have been revised to reflect the proposed FAC Terms of Reference, which would see a more defined oversight and “at arms length” role for the FAC. It was the FAC recommendation that similar oversight be considered for the Foundation and that clear reporting requirements for committees and projects should include financial expectations and associated budget(s).
The WSAVA budget was supported with the recommendation that the current WSAVA Central Secretariat administration levy of 10% for sponsored projects be increased to 12% and that membership dues reflect inflation. It was recognized that both may impact on current and future WSAVA membership and projects, and would be left to the discretion of the EB to administer appropriately. Based on a deficit budget forecast, the FAC reinforced the importance of Congress changes and the attendant economic benefits associated with the Congress moving to centralized management in partnership with a preferred PCO partnership.
In addition, maintaining the Executive Board honoraria was supported.

5.3.5.1. FAC Terms of Reference
There were no questions or comments to the Audited Financial statements as presented in the WSAVA Assembly book.

12.6.1. Bids received from Singapore (SVA), Taiwan (TVMA), and Thailand (VPAT)

12.6.2. CSC recommendation

12.6.3. Kenes Congress venue 2015 evaluation report

Dr. Neuman spoke to the reports in the Assembly book, reiterating the motions adopted at past Assembly meetings regarding changing the manner that Congresses would be hosted. Dr. Neumann also reviewed in detail the process that was undertaken to arrive at the CSC and Executive Board recommendation that the 2015 WSAVA World Congress be hosted by the Veterinary Practitioners’ Association of Thailand (VPAT) at the Bangkok Centara Grand Congress Center with dates to still be determined.
Concern was raised from the floor that the mandated 2-page bid submission document was too restrictive in content and hence resulted in insufficient information upon which to make a recommendation, and this was further complicated by no contact between bid evaluators and submitters. Dr. Neumann assured representatives that the expertise and knowledge of preferred partner PCO Kenes, critical in the assessment process, was comprehensive based on their past and ongoing work as an international PCO in the specific region where bids had been received. Had any deficiencies in information been identified, requests for additional information would have been made.

Based on the acknowledged closeness of the SVA and VPAT bids, the matter of a vote between them was raised, and this option is considered in the previously adopted venue selection protocols; ultimately, the Assembly has the final decision-making authority. Dr Neumann agreed, but restated historical problems with Congress venue selection (emotional versus objective voting) and reiterated the objective reasons that the VPAT bid is being recommended. Ultimately it is up to the Assembly to decide and the process of Assembly voting outcomes and options was reviewed. It was recognized from the floor that if the Assembly elects to vote between venues, it is contrary to the previously Assembly adopted Congress process and would be a step backwards.

Concern was also expressed that based on the move to a more economic model for Congress venue selection, Congresses may ultimately cycle through the same venues with smaller countries/venues biased against. Dr. Neumann clarified that this is not the intention of the Congress bidding process and should this become a concern, it could be addressed through revisions in the bid protocol SOP. Based on concerns raised during the meeting, Dr Neumann committed the CSC to reviewing the current Congress Bid SOP over the course of 2012 rather than the original intent of 2019.

**Motion**: that the WSAVA 2015 World Congress venue be awarded based on the recommendation of the Congress Steering Committee and WSAVA Executive Board

Seconded Dr. Brook Niemic; on voting overseen by the selected scrutineers, the vote was carried with 49 votes cast in favour and 44 against.

Prof. Makoto Washizu, SJCAP Representative, spoke to the SJCAP application in the Assembly book. A concern was raised from the floor that SJCAP was not located in Japan and did not have enough members to fulfill WSAVA membership requirements. This was disputed by Prof. Washizu, who reiterated the SJCAP location and current membership, indicating that SJCAP was comprised of a number of other groups and members with an Asian focus. The concern from the floor regarding SJCAP location was withdrawn and acknowledged as a mistake. The application was adopted with 4 against and 5 abstentions.

14.1.5. St Petersburg Veterinary Society (full member)

Mr. David Little, WVC Assistant CEO, spoke to the WVC application in the Assembly book. A question arose as to the motive for WVC membership and whether the WSAVA membership categories support. Mr. Little responded that as a provider of international small animal medicine CE, they wanted to participate in the WSAVA network to assist where possible. A review of the WSAVA By-Laws reaffirmed the ability for associations dedicated to Congress CE provision to join
as affiliates under the “specialty associations” designation. The application was adopted with 5 abstentions.

14.3.3. World Aquatic Veterinary Medical Association (affiliate member) Dr. Devon Dublin, WAVMA Representative, spoke to the WAVMA application. He was questioned as to the degree of ornamental versus aquaculture focus within WAVMA and indicated this was approximately 50:50. The WAVMA had between 250-300 members representing between 25-30 countries. In the subsequent discussion, concern was raised over suitability for WSAVA membership due to the large aquaculture focus, however others from the floor felt that the ornamental fish segment of veterinary medicine has been long overlooked and an area that needs to be supported.
